Dear Dr. Arman Harahap,

This is a message of confirmation regarding the reception of your manuscript **Study of Plankton Community in Bilah River Labuhanbatu Regency**, submitted to our journal AAAL Bioflux. I will soon contact you with further information regarding your manuscript.

I understand you wish priority processing. That would be 300 usd instead of the usual 250 usd. But I will give you more details about the payment after the preliminary evaluation.

If you can, please recommend 1 or 2 reviewers for your manuscript. If you cannot, there is no problem, I will search for reviewers.

For any questions, please contact me, on this email address.

Please try to keep one message thread (respond/ask with "Reply") for an easier message management.

Arman Harahap <armanhrahap82@gmail.com>

Hello, I am back with the paper with comments. There are major revisions needed. What you need to do is this:

1. Read all the paper carefully, because the English was corrected and the text was formatted.
2. Read carefully all the comments first (before starting the corrections, because some comments might relate to each other) and try to correct as best as you can. **Please work on this version of the manuscript. Please mark your changes (highlight with yellow, or use track changes; you can also leave the comments), so the reviewers and I can check them.** If you cannot correct, do not wish to do so, or have your own explanations, please write the reason as a reply to the comment or as a new comment.
3. If you have anything to add/change to the text not based on comments, please do so, but mark the changes like in point 2.
4. Try to respect the formatting when making changes.
5. After you make the corrections, please check again, to make sure everything is in order.
6. Send me back the corrected version of the manuscript.

Please take great care when making the corrections, because one of the reviewers wanted rejection, but somehow he accepted to see the paper with modifications and maybe give a positive evaluation after the revisions are made.

5. After you make the corrections, please check again, to make sure everything is in order.

6. Send me back the corrected version of the manuscript.

Please take great care when making the corrections, because one of the reviewers wanted rejection, but somehow he accepted to see the paper with modifications and maybe give a positive evaluation after the revisions are made.

I will check it, give it a final form, and send you the either final version for a last check before publication, or for a new round of revisions.

Hello,

I am back with the second round of revisions. The final version cannot be made yet, as you need to make some more corrections, some that were not made the first time and some new. So please be careful when making the revisions, because I cannot send you the final version until all comments are solved.

Please make all the corrections requested as you did before (with track changes), and send me back the paper.

And afterwards, if everything will be ok, I will send you the final version.

Thank you,

Best Regards,
Tudor Păpuc

Hello,

Please find attached the final version of the manuscript. The revisions were accepted and there are no new comments.

Please read this version carefully. If you want to make modifications, please do so, but mark them with track changes or yellow highlight. Unmarked changes will not be considered. This would be the last time you can make changes to this paper. Please note that we cannot change anything in the paper after publication.

If you make changes, please send me back the manuscript with changes. If not, let me know in a reply that you agree with the publication of this version of the manuscript.

After I get your reply or the paper with modifications, I will publish it in 1-3 days. I will let you know after the paper is published.

Thank you,

Tudor Papuc

Hello,

Your paper is accepted for publication. Please find attached the acceptance letter.

After this acceptance you should pay 300 USD for publication (open access-priority processing).

As the payment and bank transfer may be time consuming you may start the process of payment right now; we will send you the invoice immediately after the payment.

Please let us know when the payment is done (scanned receipt) in order to start the publishing process.

The payment will not be returned in case of withdrawal request by authors or simply lack of feedback.

Please note that the Publishing House Policy does not allow to start the manuscript editing prior payment.

Here are the info for payment;

take care to write correct the details:

Beneficiary: Bioflux SRL

City: Cluj-Napoca

Country: Romania, European Union

SWIFT CODE of the bank: BTRLRO22

Congratulations! The manuscript is published!

You can find it here, on our site: <http://www.bioflux.com.ro/docs/2022.2950-2956.pdf> or in the attachment below.

The changes with the affiliations numbers were not accepted. The number near the author name does not show the order of authors, but it represents the code of the affiliation. So, number 1 is the first affiliation, number 2 the second, and so on. So, if you have an author with numbers 1,3,4 near the name, you should have three different affiliations for that same author, which was not the case. Most authors in your paper have one affiliation, and because that affiliation was in order for the first author, it got the code 1. The second author also has one affiliation, but it is different from the other affiliation, so it gets the code 2. The next authors also get the code 1, because it is the same affiliation with that of the first author.

Thank you for publishing with us!

Best Regards,
Tudor Păpuc
Editor, Bioflux
